Nikhil Muthal

Product Designer

nikhilmuthal@outlook.com | +91 9699602336 | Pune, India | www.nikhilmuthal.com

SUMMARY

Product Designer with 6+ years in complex enterprise SaaS, most recently on the TIBCO Control Plane: role based access control, BW5 process monitoring, and a shared application header used across 10+ apps, all shipped to production. Owns work end to end, from research and requirements to interaction design, visual design, and developer handoff. Previously delivered the DartCharge toll payment platform for UK Government (gov.uk).

SKILLS

Design: UX/UI Design, Interaction Design, Visual Design, Wireframing, Prototyping, User Flows, User Journeys, Information Architecture, Design Systems

Research: User Research, Stakeholder Interviews, Contextual Inquiry, Usability Testing, Persona Creation, Task Analysis, Heuristic Evaluation

Brand & Illustration: Brand Identity, Storyboarding, Illustration, Mood Boards, Brand Collateral, Brand Guidelines

Tools: Figma, FigJam, Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Jira, Claude AI

EXPERIENCE

Coforge | Product Designer

May 2024 - Present | Pune, India

- Led Phase 1 design for onboarding TIBCO BusinessWorks 5 (BW5) onto the TIBCO Control Plane, including a new process monitoring experience; ran weekly reviews over 3 to 4 months and shipped after sign off from the UX team and engineering team.
- Co-designed role based access control (RBAC) and user management, defining four roles (Owner, Data Plane Manager, Capability Manager, Entity Viewer) with resource level permissions across SaaS and self hosted setups.
- Designed one application header component serving 10+ apps and capabilities, using priority based zones that leave room for future capabilities; approved by the UX team and engineering team and shipped.
- Designed provisioning, modification, and management flows for BW5 and BW6 services on the platform.
- Received a Coforge Spot Award for design work on the TIBCO Control Plane.

Cloud Software Group | Product Designer

May 2023 - May 2024 | Pune, India

- Designed core experiences for the launch of the new TIBCO Platform Control Plane, letting IT operations teams monitor and manage multiple TIBCO products from one interface.
- Owned work from requirements gathering through interaction and visual design, partnering closely with product managers and engineering.
- Ran user research and documented findings to back design decisions.

HCLTech | UX Designer

October 2020 - April 2023 | Bengaluru, India

- Delivered the DartCharge toll payment platform for UK Government transport (gov.uk), from user research through design and delivery.
- Conducted user and stakeholder interviews, contextual inquiry, affinity mapping, persona creation, task analysis, and market analysis to inform design.
- Ran heuristic and UI evaluations and led concept and design of the native mobile app, working with project managers, developers, and stakeholders.

Clikiz Technologies | Graphic Designer

June 2017 - January 2018 | Nagpur, India

- Delivered logo design, branding, brochure design, and website mockups for clients across industries.
- Produced social media creatives, brand collateral, and brand guidelines, and worked with developers to implement designs accurately.

EDUCATION

Master of Design, Communication Design | IDC, IIT Bombay | 2020

Bachelor of Engineering, Computer Science and Engineering | DMIETR, Wardha | 2017
